**Show up like no one else.** Have the advantage over your competitors that are still using video calls. Showing up is important, and making it look easy is even more impressive!

**Keep your shoes on.** When you fly with P&N there are no lines, no TSA, no terminals, and no waiting.

**Travel on your schedule.** The pilot will have the airplane ready when you show up to the airport. When you park your car you'll already be within a 30 second walk to the airplane. The pilot will layover for departure at your convenience whether a few hours or overnight.

**Be home in time for dinner.** Head over to Kansas City, Omaha, Minneapolis, Chicago, Indianapolis, Detroit or hundreds of other cities in the Midwest in the morning. Have your meetings, attend a conference or trade show, and be home in time for dinner. A three-day ordeal wrapped up in just 8 hours.

THE BEECHCRAFT A36

P&N's locally owned air taxi service (also known as air charter) is certified by the Federal Aviation Administration for carrying passengers and cargo in a Beechcraft A36. It seats similar to a midsize car with two forward facing seat, two rear facing seats, and two pilot seats. The A36 is known for its reliability, range, and comfort.

P&N is a family run operation owned by Cole Norton, an FAA certified Airline Transport, Commercial Pilot, and Flight Instructor. Charter pilots are tested every six months by the FAA.

Over the last few years, private air travel has given businesses an advantage. Your competitors are already doing it, so it's time to climb on board, literally!
